Project Information & Scope of Work in Brief

1.0 General:

- 1.1 Dedicated Freight Corridor Corporation of India (DFCCIL) is a Special Purpose Vehicle set up under the administrative control of Ministry of Railways to undertake planning & development, mobilization of financial resources and construction, maintenance and operation of the Dedicated Freight Corridors. In the first phase, DFCCIL will be constructing two corridors - the Western DFC and Eastern DFC- spanning a total length of about 3300 route km. The Eastern Corridor, starting from Ludhiana in Punjab and pass through the states of Haryana, Uttar Pradesh, Bihar, Jharkhand and terminate at Dankuni in West Bengal. The Western Corridor will traverse the distance from Dadri to Mumbai, passing through the states of UP, Delhi, Haryana, Rajasthan, Gujarat and Maharashtra.

The route alignment of Freight Corridors is mostly parallel to existing adjacent Indian Railway Track. However alignment is on detour at some locations to avoid social/environmental/wild life impact.

The project entails construction of mostly double-track electrified railway lines. Bridges and embankment would be fit for 32.5 Tonne Axle load and Track structure would be designed for handling 25 Tonne axle load with train speed up to 100 Kmph.

The Eastern Corridor will handle single stack containers whereas Western Corridor is planned to cater to double stack containers. Up gradation of transportation technology, increase in productivity and reduction in unit transportation costs have been taken as guiding principles for freight corridor.

2.0 Project Information:

DFCCIL has awarded Civil, Structures & Track work contract between Khurja-Dadri section of Eastern Dedicated Freight Corridors for which work is in progress.

To facilitate the receiving of goods traffic from DN direction Indian Railway traffic from Dadri yard to DFC yard at New Boraki avoiding surface crossing, a rail flyover between Dadri & New Boraki station has been planed.

- 2.1. Accordingly, DFCCIL intends to carry out the work "Design and Construction of Rail Flyover and approaches on Viaducts, Formation in Embankments/Cuttings including blanketing, Supply and Spreading of Ballast and related works for single track electrified railway line on Design Build Lump Sum Basis connecting New Boraki DFC yard to Dadri yard approx. length 4.54 Kms from Ch. 0.00 m (Rly Km 1410.436) to Ch. 4540 m (Rly Km 1414.955) and related Diversion works in connection with Eastern Dedicated Freight Corridor in the state of Uttar Pradesh in India".
