**Sub: Appeal disposal**

**Ref: Appeal dated 24-05-19 received on 30-5-2019.**

Your appeal is against non-publishing of result of document verification. You should know that document verification is not a test the result of which is to be published. It is done on the spot to verify the papers/documents/certificates etc. whether those are exactly the same as claimed by the candidate during filling up<sup>of</sup> application. It is known to each and every candidate who comes for document verification as the findings are told on the spot. So your grievance does not merit consideration because you have<sup>been</sup> categorically replied by the CPIO that such result is not published in DFCCIL.

Hope you appreciate the position. Your appeal thus stands disposed  
of.
