Subject: Providing information w.r.t. Original RTI Application received under the RTI Act 2005.

Reference: RTI application dated 28.06.2022 received in this office on 01.07.2022.

You have sought for information on points which pertain to various project offices under EDFC & WDFC and the same (i.e. information) is not available centrally that too in the form you have asked for. The references to all concerned for collection, collation & compilation of information from all 14 project offices would disproportionately divert the resources of the public authority in comparison to the public interest involved.

As such your application is rejected under Section 7(9) of RTI Act. 2005. However, if you ask for specifically on matters pertaining to one project office the same can be provided.
