1. INTRODUCTION

1.1 Background

- 1.1.1 Dedicated Freight Corridor Corporation of India Ltd. (DFCCIL), a public sector undertaking has been set up under the Indian Companies Act, 1956 for implementation of Dedicated Freight Corridor Project. Government of India is the sole share holder of the DFCCIL.

Ministry of Railways (MOR), Government of India has planned to construct Dedicated Freight Corridor (DFC) covering about 3338 route Kilometres on Eastern and Western Corridors. The coverage of Eastern Corridor is from Ludhiana to Dankuni and Western Corridor is planned from Jawaharlal Nehru Port, Mumbai to Rewari/Tughlakabad/Dadri near Delhi. There will be a linkage between two corridors at Dadri.

Eastern Dedicated Freight Corridor

Eastern DFC Route will be approximately 1839Kmlong from Dankuni to Ludhiana via Dankuni-Asansole-Dhanbad-Gaya-Sonnagar - Mughalsarai-Allahabad - Kanpur - Tundla- Aligarh - Khurja - Bulandshahr - Meerut - Saharanpur-Ambala-Ludhiana. Proposed alignment of DFC has been generally kept parallel to existing Indian Railway line except provision of detours at some stations where the existing yards/cities are congested.

Sasaram (SSM) Station Yard

At Sasaram Station of Pt Deen Dayal Upadhyay Nagar (erstwhile Mughalsarai) Division of East Central Railway (ECR), a connection for Ara station takes off from the Howrah end of the station yard. DFC tracks which are running parallel to IR tracks from DDU to SEB Section are presently making surface connection. This surface crossings tracks puts a constraint on the swift movement of trains and also creates congestion points for trains. To avoid this, construction of Rail Flyover (RFO) for grade-separated crossing of tracks is financially and operationally beneficial. Keeping this objective in mind an RFO has been planned which will connect Ara-Sasaram line flying over the DFC tracks, IR tracks and connects to Sasaram avoiding surface crossing. This RFO is for running of IR passenger and goods trains with 25T axle load on electric traction.

Pt Deen Dayal Upadhyay (DDU) Yard

At DFCCIL station yard at Pt Deen Dayal Upadhyay Nagar (DDU), a connection for dispatch of goods train towards Varanasi / Lucknow is required. A surface crossing for this connection puts severe constraint on the swift movement of trains and also creates congestion points for trains.

Keeping this objective in mind an RFO has been planned which will connect a DFC track taking off from UP DFC track flying over the DFC tracks, IR tracks of ECR, IR track of NR and connects to Vyasnagar Station of Northern Railway avoiding surface crossing. This RFO is for running of goods trains with 32.5T axle load on electric traction.

Level Crossings (LC's) are generally unsafe locations and also a congestion points for road/rail's users. These LC's are operational bottlenecks for Railways /DFCCIL in terms of loss in punctuality and reduction in line capacity. Construction of ROB(s)/ RUB(s) is financially and operationally beneficial apart from the fact that it improves the safety of Rail / Road users. On Delhi end of DDU Yard, the existing level crossing no. 112 needs to be eliminated by constructing an RUB under DFC and IR tracks of ECR.

At station area or near residential areas where pedestrians are required to cross the railway track, provision of Foot Over Bridge (FOB) provides them a safe way to cross the tracks. In DDU yard three FOBs are infringing the DFC track alignment. These three FOBs are required to be extended / modified to make way for laying of DFC tracks.

SECTION 4

PROJECT DESCRIPTION

Signature of Tenderer(s)

A handwritten signature in black ink, appearing to be 'Amir', is written over a faint rectangular stamp.

4. PROJECT DESCRIPTION

4.1 Introduction of Dedicated Freight Corridor Corporation of India Ltd

- 4.1.1 Dedicated Freight Corridor Corporation of India Ltd. (DFCCIL), a public sector undertaking has been set up under the Indian Companies Act, 1956 for implementation of Dedicated Freight Corridor Project. Government of India is the sole shareholder of the DFCCIL.

Ministry of Railways (MOR), Government of India has planned to construct Dedicated Freight Corridor (DFC) covering about 3338 route Kilometres on Eastern and Western Corridors.

4.1.2 Eastern Dedicated Freight Corridor

Eastern DFC Route will be approximately 1839Kmlong from Dankuni to Ludhiana via Dankuni-Asansole-Dhanbad-Gaya-Sonnagar-Mughalsarai- Allahabad -Kanpur -Tundla-Aligarh -Khurja-Bulandshahr - Meerut -Saharanpur-Ambala-Ludhiana. Proposed alignment of DFC has been generally kept parallel to existing Indian Railway line except provision of detours at some stations where the existing yards/cities are congested.

4.1.3 Sasaram (SSM) Station Yard

At Sasaram Station of Pt Deen Dayal Upadhyay Nagar (erstwhile Mughalsarai) Division of East Central Railway (ECR), a connection for Ara station takes off from the Howrah end of the station yard. DFC tracks which are running parallel to IR tracks from DDU to SEB Section are presently making surface connection. This surface crossings tracks puts a constraint on the swift movement of trains and also creates congestion points for trains. To avoid this, construction of Rail Flyover (RFO) for grade-separated crossing of tracks is financially and operationally beneficial. Keeping this objective in mind an RFO has been planned which will connect Ara-Sasaram line flying over the DFC tracks, IR tracks and connects to Sasaram avoiding surface crossing. This RFO is for running of IR passenger and goods trains with 25T axle load on electric traction.

4.1.4 Pt Deen Dayal Upadhyay (DDU) Yard

At DFCCIL station yard at Pt Deen Dayal Upadhyay Nagar (DDU), a connection for dispatch of goods train towards Varanasi / Lucknow is required. A surface crossing for this connection puts severe constraint on the swift movement of trains and also creates congestion points for trains. Keeping this objective in mind an RFO has been planned which will connect a DFC track taking off from UP DFC track flying over the DFC tracks, IR tracks of ECR, IR track of NR and connects to Vyasnagar Station of Northern Railway avoiding surface crossing. This RFO is for running of goods trains with 32.5T axle load on electric traction.

Level Crossings (LC's) are generally unsafe locations and also a congestion points for road/rail's users. These LC's are operational bottlenecks for Railways /DFCCIL in terms

of loss in punctuality and reduction in line capacity. Construction of ROB(s)/ RUB(s) is financially and operationally beneficial apart from the fact that it improves the safety of Rail / Road users. On Delhi end of DDU Yard, the existing level crossing no. 112 needs to be eliminated by constructing an RUB under DFC and IR tracks of ECR.

At station area or near residential areas where pedestrians are required to cross the railway track, provision of Foot Over Bridge (FOB) provides them a safe way to cross the tracks. In DDU yard three FOBs are infringing the DFC track alignment. These three FOBs are required to be extended / modified to make way for laying of DFC tracks.

4.2 Sanctioned Projects

- 4.2.1 In Mughalsarai- Sonenagar Section of EDFC, two Rail Flyovers (RFOs), one each at near Sasaram station and near Mughalsarai station has been sanctioned. In addition, one RUB at LC-112 and 3 numbers of FOB in DDU have also been sanctioned and execution has been entrusted to DFCCIL. For these works separate works tenders have been invited/being invited.

4.3 Scope of Work of Selected Project(s)

- 4.3.1 The works tender for construction of different RFOs, RUB and FOBs is being packaged depending on geography, nature of work and priority of works. The construction of two RFOs is being taken up through separate works Contractors (the “**Contractor(s)**”) for which contracts are under finalization. For RUB and FOBs, another works contract is under finalisation. DFCCIL has decided to appoint the Consultant in the field of Civil Engineering /Bridge Construction for Project Management Services for Construction Supervision of the said Project(s) (the “**Project(s)**”).
- 4.3.2 Presently, Project Management Consultancy Services for 02 (Two) RFOs, 01 (One) RUB and 03 (Three) FOBs of the Mughalsarai-Sonenagar section as shown in Para 4.4 will be taken up for this Consultancy Contract. The scope of consultancy includes PMC services of associate structures eg. minor/major bridges, drainage, earthwork etc. The list of RFOs / RUBs / FOBs is only indicative and as per requirement, more RFOs / RUBs / FOBs /ROBs may be added in the scope of work or LC No. Due increase in number of civil structures, if it is considered essential, the number of relevant PMC officials may be increased and paid in terms of relevant GCC Clause. Similarly, during the operation of contract, if any ROB/ROBs etc are deleted altogether the same will be kept out of purview of the contract and deployment of PMC officials may be reduced accordingly.
