2. All statutory taxes and liabilities levied/may be levied in future by the Central and State Government or any other governing authority/agency from time to time shall be borne by the contractor and the rate shall be inclusive of all such liabilities.
3. GST is inclusive for this tender.
4. The Work Provider will, for the purpose, aforesaid continuously monitor the Works being rendered by it to ensure that these are up to the standards required by DFCCIL.
5. The Work Provider shall indemnify and keep DFCCIL indemnified and harmless from and against all disputes, claims, fines, penalties, litigations criminal as well

as civil that may be initiated against the DFCCIL on account of and/or arising out of the failure of the Work Provider to adhere to any statutory requirement, or to follow such rules regulations, guidelines or procedures as may be required under any statute or directive.

5.3.25 QUANTITY VARIATION:

Rates quoted in the schedule of items shall be valid for a variation of the quantity up to maximum of (\pm) 25% for each item. In case of variation in quantities beyond $\pm 25\%$, the rates for the additional quantities beyond $\pm 25\%$ variation shall be negotiated/decided on mutually acceptable terms, provided the rate so arrived does not exceed the originally accepted rate as per agreement.

(i) Unless otherwise specified in the special conditions of the contract, the accepted variation in quantity of each individual item of the contract would be upto 25% of the quantity originally contracted, except in case of foundation work. The Contractor shall be bound to carry out the work at the agreed rates and shall not be entitled to any claim or any compensation whatsoever upto the limit of 25% variation in quantity of individual item of works.

(ii) In case of earthwork, the variation limit of 25% shall apply to the gross quantity of earth work and variation in the quantities of individual classifications of soil shall not be subject to this limit.

(iii) In case of foundation work, no variation limit shall apply and the work shall be carried out by the contractor on agreed rates irrespective of any variation.

(iii) Individual NS items in contracts shall be operated with variation of plus or minus 25% and payment would be made as per the agreement rate. For this, no finance concurrence would be required.

(iv) In case an increase in quantity of an individual item by more than 25% of the agreement quantity is considered unavoidable, the same shall be got executed by floating a fresh tender. If floating a fresh tender for operating that item is considered not practicable, quantity of that item may be operated in excess of 125% of the agreement quantity subject to the following conditions:

(a) Operation of an item by more than 125% of the agreement quantity needs the approval of an officer of the rank not less than S.A. Grade;

(i) Quantities operated in excess of 125% but upto 140% of the agreement quantity of the concerned item, shall be paid at 98% of the rate awarded for that item in that particular tender;

(ii) Quantities operated in excess of 140% but upto 150% of the agreement quantity of the concerned item shall be paid at 96% of the rate awarded for that item in that particular tender;

(iii) Variation in quantities of individual items beyond 150% will be prohibited and would be permitted only in exceptional unavoidable circumstances with the concurrence of associate finance and shall be paid at 96% of the rate awarded for

that item in that particular tender.

(b) The variation in quantities as per the above formula will apply only to the Individual items of the contract and not on the overall contract value.

(c) Execution of quantities beyond 150% of the overall agreemental value should not be permitted and, if found necessary, should be only through fresh tenders or by negotiating with existing contractor, with prior personal concurrence of Finance/DFCCIL and approval of General Manager.

(v) In cases where decrease is involved during execution of contract :

(a) The contract signing authority can decrease the items upto 25% of individual item without finance concurrence.

(b) For decrease beyond 25% for individual items or 25% of contract agreement value, the approval of an officer not less than rank of S.A. Grade may be taken, after obtaining 'No Claim Certificate' from the contractor and with finance concurrence, giving detailed reasons for each such decrease in the quantities.

(c) It should be certified that the work proposed to be reduced will not be required in the same work.

(vi) The limit for varying quantities for minor value items shall be 100% (as against 25% prescribed for other items). A minor value item for this purpose is defined as an item whose original agreement value is less than 1 % of the total original agreement value.

(vii) No such quantity variation limit shall apply for foundation items.

(viii) As far as SOR items are concerned, the limit of 25% would apply to the value of SOR schedule as a whole and not on individual SOR items. However, in case of NS items, the limit of 25% would apply on the individual items irrespective of the manner of quoting the rate (single percentage rate or individual item rate).

(ix) For the tenders accepted at Zonal Railways level, variations in the quantities will be approved by the authority in whose powers revised value of the agreement lies.

(x) For tenders accepted by General Manager, variations upto 125% of the original agreement value may be accepted by General Manager.

(xi) For tenders accepted by Board Members and Railway Ministers, variations upto 110% of the original agreement value may be accepted by General Manager.

(xii) The aspect of vitiation of tender with respect to variation in quantities should be checked and avoided. In case of vitiation of the tender (both for increase as well as decrease of value of contract agreement), sanction of the competent authority as per single tender should be obtained.

5.3.26 TERMINATION OF CONTRACT: -

In case the work of the contractor is not found satisfactory, or there is a breach of any of

the terms and conditions of the contract and/or fails/neglects to carry out any instruction issued to it by DFCCIL from time to time the same can be terminated by DFCCIL on giving of the notice as stipulated in GCC.

5.3.27 IMPLEMENTATION OF INTEGRITY PACT IN DFCCIL :-

- (iv) Have an execution levied on his goods or property on the works, or
- (v) Assign the contract or any part thereof otherwise than as provided in General or Special Conditions, or
- (vi) Abandon the contract, or
- (vii) Persistently disregard the instructions of the Engineer, or contravene any provision of the contract, or
- (viii) Fail to adhere to the agreed program of work by a margin of 10% of the stipulated period, or
- (ix) Fail to execute the contract documents.
- (x) Fails to submit the documents pertaining to identity of JV and PAN. Form available in the Regulations for Tenders and Contracts.
- (xi) Fail to remove materials from the site or to pull down and replace work after receiving from the Engineer notice to the effect that the said materials or works have been condemned or rejected.
- (xii) Fail to take steps to employ competent or additional staff and labour as required.
- (xiii) Fail to afford the Engineer or Engineer's representative proper facilities for inspecting the works or any part thereof as required.
- (xiv) Promise, offer or give any bribe, commission, gift or advantage either himself or through his partner, agent or servant to any officer or employee of the Railway/DFCCIL or to any person on his or on their behalf in relation to the execution of this or any other contract with this Railway.
- (xv)(A) At any time after the tender relating to the contract, has been signed and submitted by the Contractor, being a partnership firm admit as one of its partners or employee under it or being an incorporated company elect or nominate or allow to act as one of its directors or employee under it in any capacity whatsoever any retired Engineer of the gazetted rank or any other retired gazetted officer working before his retirement, whether in the executive or administrative capacity, or whether holding

any pensionable post or not, in the Railways/DFCCIL for the time being owned and administered by the President of India before the expiry of one year from the date of retirement from the said service of such Engineer or Officer unless such Engineer or Officer has obtained permission from the President of India or any officer duly authorized by him in this behalf to become a partner or a director or to take employment under the contract as the case may be, or

(xv)(B) Fail to give at the time of submitting the said tender:

(a) The correct information as to the date of retirement of such retired Engineer or retired officer from the said service, or as to whether any such retired Engineer or retired officer was under the employment of the Contractor at the time of submitting the said tender, or

(b) The correct information as to such Engineers or officers obtaining permission to take employment under the Contractor, or

(c) Being a partnership firm, the correct information as to, whether any of its partners was such a retired Engineer or a retired officer, or

(d) Being in incorporated company, correct information as to whether any of its directors was such a retired Engineer or a retired officer, or

(e) Being such a retired Engineer or retired officer suppress and not disclose at the time of submitting the said tender the fact of his being such a retired Engineer or a retired officer or make at the time of submitting the said tender a wrong statement in relation to his obtaining permission to take the contract or if the Contractor be a partnership firm or an incorporated company to be a partner or director of such firm or company as the case may be or to seek employment under the Contractor.

(f) Submits copy of fake documents / certificates in support of credentials, submitted by the tenderer

Then and in any of the **said Clause**, the Engineer on behalf of the Railway/DFCCIL may serve the Contractor with a notice in writing to that effect and if the Contractor does not within seven days after the delivery to him of such notice proceed to make good his default in so far as the same is capable of being made good and carry on the work or comply with such directions as aforesaid of the entire satisfaction of the Engineer, the Railway shall be entitled after giving 48 hours' notice in writing under the hand of the Engineer to rescind the contract as a whole or in part or parts (as may be specified in such notice) and after expiry of 48 hours' notice, a final termination notice should be issued.

Note: Engineer at his discretion may resort to the part termination of contract with notices, only in cases where progress of work is more than or equal to 80% of the original scope of work.

5 Right of Railway/DFCCIL after Rescission of Contract owing to Default of Contractor: In the event of any or several of the courses, referred to in Sub-Clause (1) of this Clause, being adopted:

(a) The Contractor shall have no claim to compensation for any loss sustained by him by reason of his having purchased or procured any materials or entered into any commitments or made any advances on account of or with a view to the execution of the works or the performance of the contract and Contractor shall not be entitled to recover or be paid any sum for any work thereto for actually performed under the contract unless and until the Engineer shall have certified the performance of such work and the value payable in respect thereof and the Contractor shall only be entitled to be paid the value so certified.

(b) In the contract which has been rescinded as a whole, the Security Deposit already with railways under the contract shall be encashed/ forfeited and the Performance Guarantee already submitted for the contract shall be encashed. The balance work shall be got done independently without risk & cost of the failed Contractor. The failed Contractor shall be debarred from participating in the tender for executing the balance work. If the failed Contractor is a JV or a Partnership firm, then every member/partner of such a firm shall be debarred from participating in the tender for the balance work in his/her individual

capacity or as a partner of any other JV /partnership firm.

Further the authorized representative of failed Contractor cannot be accepted as authorized representative in new contract.

(c) In the contract rescinded in part or parts,

(i) The full Performance Guarantee for the contract shall be recovered. No additional Performance Guarantee shall be required for balance of work being executed through the part terminated contract. The contract value of part terminated contract stands reduced to the balance value of work under the contract.

(ii) The Security Deposit of part terminated contract shall be dealt as per relevant clause of GCC.

(iii) The defaulting Contractor shall not be issued any completion certificate for the contract.

(iv) The balance work shall be got done independently without risk & cost of the failed Contractor. The failed Contractor shall be debarred from participating in the tender for executing the balance work. If the failed Contractor is a JV or a Partnership firm, then every member/partner of such a firm shall be debarred from participating in the tender for the balance work in his/her individual capacity or as a partner of any other JV /partnership firm.

(v) Further the authorized representative of failed Contractor will not be accepted as authorized representative in new contract.

(d) The Engineer or the Engineer's Representative shall be entitled to take possession of any materials, tools, implements, machinery and buildings on the works or on the property on which these are being or ought to have been executed, and to retain and employ the same in the further execution of the works or any part thereof until the completion of the works without the Contractor being entitled to any compensation for the use and employment thereof or for wear and tear or destruction thereof.

(e) The Engineer shall as soon as may be practicable after removal of the Contractor fix and determine ex-parte or by or after reference to the parties or after such investigation or enquiries as he may consider fit to make or institute and shall certify what amount (if any) had at the time of rescission of the contract been reasonably earned by or would reasonably accrue to the Contractor in respect of the work then actually done by him under the contract and what was the value of any unused, or partially used materials, any constructional plant and any temporary works upon the site. The legitimate amount due to the Contractor after making necessary deductions and certified by the Engineer should be released expeditiously.

SCOPE OF WORK & Annexure (Technical Specifications)

Scope of Work:

The scope of work covers “Providing Power supply points for welding near ramp line at New Palanpur yard for TOT(RO RO) rake maintenance”.

Technical Specifications

Item No-1: Supply, install, test and commission of 16/20A & 63A plug socket with TOP enclosed in metal Box with 4 Nos. 125A cable connector.

The contractor has to supply, install, test and commission of 16/20A & 63A plug socket with TOP enclosed in metal Box with 4 Nos. 125A cable connector. Metal box shall be made of 2mm thick MS sheet, powder coated, dust and vermin proof comprising as following- Three phase, 5-pin 415V, 63A capacity plug socket (make- MDS, GE, Indoasian, HPL, BCH, Anchor, C&S, Jainson, CG, Havells) shall be heavy duty metal body type, spring loaded butt type contacts, self-aligned and self-wiping type confirming to IEC:60309 or latest with switch. The plug socket shall be controlled by 63A, 3-pole MCCB shall be of 35 KA, rupturing capacity with $I_{cs}=I_{cu}$, The MCCB shall be as per IS 13947-2/1993. Single phase, 230V, 16/20 A capacity 3-pin plug socket shall be heavy duty metal body type. The 16/20A Plug socket (make- MDS, GE, Indoasian, HPL, BCH, C&S, Jainson, CG, Havells) shall be controlled by C-curve type DP MCB of 20A capacity. MCB. The rupturing capacity of MCBs shall be 10 KA, C curve.

The box shall be internally wired by PVC insulated, single core flexible copper cable of suitable size with copper crimping lugs. Terminal strips shall be provided for loop in loop out connections of cables. The door of the box shall have locking arrangement. The box shall be securely mounted on wall with necessary MS clamps, nuts, bolts etc.

Note:-The drawings, design plug socket, switch gears with make and model of the box shall be submitted by the contractor & got approved by PM/Elect/ADI. Contractor shall have to arrange the inspection of plug socket box at manufacturer's premises before supply at site at his own cost.

Item No-2: Provision of “C” Channel of MS for mounting of Socket box.

The contractor shall have to supply and install, 4 inch “C” Channel of MS, having 2 meter length (minimum thickness of 4mm, hot rolled) at suitable location as guided by Site representative of DFCCIL. Digging and mounting of the channel in 0.5 Cum RCC foundation shall be made including all necessary materials in a manner so that the channel shall be in position to bear the load of Socket box in all weather condition and also in normal vibration/shocks/jerks.

The Socket box is to be mounted on this channel including all necessary saddles/clamps/nut-boats/etc.along with cable termination/looping to bottom of the Socket box along with proper size metal gland.

Item No-3: Supply of material and providing 50 mm dia GI pipe earthing with B class GI pipe.

The earthing shall not be situated less than 1.5 meter from any building. The main earthing lead shall be of 2 Nos 25x3mm GI strip in case of HT installation GI strip shall be of 50X6 mm. The earthing lead shall be suitably protected from mechanical injury by being recessed in walls minimum of 30 mm deep, wherever exposed. These two strip to be connected properly with earth electrode to the Distribution Board, covered with PVC sleeves of suitable size. The earthing lead shall be buried at least 60 cm (2 feet) deep below ground level.

Earthing should be carried out as per IS 3043- 1987 as amended latest. The earth resistance value of all earthings will be displayed along with the date on which earth resistance tested and it should not more than Five ohms. Earth resistance should be measured and tested jointly. Details of earthing are given as under:-

- The G.I. pipe for the earthing electrode shall be 50 mm dia. Of "B" class as per IS: 1239 and of ISI marked Zenith, Prakash Surya, Jindal, TATA, Asian make's.
- The G.I. earthing strip ends shall be clamped between two G.I. washers of sufficient size and properly tightened with G.I. nut bolts of 12mm size.
- The tenderer shall supply and connect two Nos.25x3 mm G.I. strip from earthing electrode to MDB/Jn. Box /equipments or wherever required. Earthing strip shall be covered with PVC sleeve.

A pre-casted earthing chamber of cement concrete with cast iron/RCC cover as per attached drawing shall be supplied and provide on each earthing. Contractor has to provide two coat of lime on cemented structure after completion of work.

The contractor shall have to supply and laying 50mm dia. „B" class ISI mark G.I. Pipe for the purpose of laying of cable in it, with suitable coupling for each length of the pipe. Pipe should be of Zenith, Prakash Surya, Jindal, TATA, Asian conforming to IS: 1239.

Item No-4: Feeder pillar for power supply control

The contractor shall have to design, supply, install, test and commission feeder pillar fabricated by 2 mm thick MS sheet, standard angles, channels etc. as required in design. The drawing, design switch gears with make and model of the feeder pillar shall be submitted by the contractor & got approved by PM/Elect/ADI before fabrication.

The feeder pillar shall be outdoor rectangular cubicle type, dust and vermin proof suitable for 3 phase, 4-wire, 415V, 50Hz AC supply system. 250A capacity bus bar of suitable length (Total 04 nos.) for main circuit and neutral shall have uniform cross section electrolytic tinned copper with color coded heat shrinkable PVC insulated and current density of 1.6 Amp/mm² cross sectional area.

Knock out / gland plates as applicable shall be provided. Gland plates of suitable size shall be designed for terminating cables in a straight and easy manner.

All power connections from the bus bar shall be made such a manner that there is a clear metal to metal clearance at the tapping is available. Both spring washer and plate washer shall be used with stud/ nuts/to ensure proper contact pressure.

The feeder pillar shall have metal locks & operated by a common key. All covers & doors to be provided with neoprene gasket. Hinged doors shall be provided on both sides.

The sheet steel enclosure / angle / channel used in the fabrication of panel shall be provided with double coating of red oxide and final coating of light grey powder coated paint. Caution board in Hindi, Gujarati & English of metallic type shall be provided on feeder pillar. Digital Ameter and Digital Voltmeter of suitable capacity with selector switch (Make: Salzer / THAKOR / KAYCEE) and CT on each phase of incoming supply. Multi LED type indication lamp conforming to relevant IS having colour code red, yellow and blue with control fuses of incoming feeder shall be provided. Minimum two earth terminals shall be provided in the feeder pillar all sheet steel section shall be electrically connected with a separate G.I. earth strip of 50x6 mm size across the panel at bottom.

Feeder pillar shall be mounted on the fabricated MS Angle (Size 50x50x6mm) on floor and cemented trench for incoming and outgoing cables shall be prepared by the contractor. Contractor shall have to provide cable gland & lugs for cable termination in the feederpillar

The feeder pillar shall be comprised with following switch gears:

1 No. 200A MCCB 4-pole adjustable type with Microprocessor Release with rotary handle. MCCB should be CM921510000X1 of L&T with microprocessor release MTX1.0 or its equivalent of make as per List of Approved Make given below. Distribution copper bus bar.

Note:- The contractor shall have to arrange inspection of the feeder pillar at the manufacturer's premises at his own cost.

Item No-5: Supply of 4 core 25 sqmm LT Aluminium armoured cable.

The contractor have to supply of ISI marked", XLPE insulated, 1.1 KV grade aluminium conductor, PVC insulated armoured cables, of above sizes as mentioned in schedule of rates & quantity and confirming to IS 7098(part I)1988 or applicable latest as amended up to date.

In case of full drum length of the cable, the contractor has to offer for testing and inspection of cable at manufacturer's works for which all arrangement i.e. fixing of time & date with manufacturer, arranging testing instruments, etc. shall have to be made by contractor at his own cost. The cable shall be tested in accordance with IE rules and relevant ISS & standard code of practice.

Item No-6: Digging of cable trench 450 X 1000 mm and refilling.

A trench of 450 mm in width and 1000 mm depth from the normal ground level in normal soil shall be made by the contractor and while laying the cable a layer of riddle soil shall be provided below and above the cable. After doing this the trench can be filled up with soil available thereby. If any damage is to be done, contractor will make good the cost of damage as decided by DFCCIL. If any infringement comes in the digging route then contractor should remove the same. If any hard /stony soil, contractor should adopt new technology method as per scope of work.

Item No-7: Supply and laying of half round RCC pipe 100 mm ID and 1 mtr length.

The contractor shall supply and laying half Round RCC pipes of 100 mm. inner dia. and 1.0 Mtr. in length. The internal surface shall have a smooth finish without any bulge or projections to avoid damage to the cable.

Internal dia.	External dia.	Thickness	Approx. Weight	Approx. Steel Weight
100mm	125mm	25mm	11.5 Kg	190 gm

RCC Half round pipes shall be laid above cables for mechanical protection on laid cables in the existing trench. After doing this the trench can be filled up with soil available thereby. If any damage is to be done, contractor will make good the cost of damage as decide by DFCCIL.

Item No-8: Transportation, laying, installation, terminating and testing commissioning of LT cable in existing trench, pipe, on structure, etc.

The contractor shall have to transport all the cables to be used at site. Contractor shall lay the cable in existing trench, pipe & on Wall/ structure.

Before laying the cable in the ground / Pipes or on the wall/pillars/cable tray cable should be secured properly by providing saddling/clamping arrangement of proper size at suitable interval.

Before and after laying the cable, the IR value should be checked and the contractor shall arrange all the testing instruments. In case of any failure contractor will again re-lay the cable at his own cost. Armoring of the cable shall be earthed at both end of the cable.

Wherever the cable comes out of the ground at least one loop of sufficient radius should be provided under the ground.

While laying the cable and while digging the trench it should be ensured that no obstruction should come in way of drainage line, power cables, telecommunication cables etc.

If any damage is to be done, contractor will make good the cost of damage as decided by DFCCIL.

Item No-9: LT cable route marker.

The contractor shall supply, installation, testing and commissioning cable route markers on route of cable at each turning point and suitable distance in straight portion as guided by DFC Site representative.

The cable route marker shall be casted of C.I. with information as size, cores and grade of cable. After fabrication the complete marker assembly, it shall be hot dip galvanized to make it anti corrosive and got approved from PM/Elect before bulk supply.

ItemNo-10: Digging of cable trench 450 X 1000 mm and refilling in RCC/PCC/Hard soil.

A trench of 450 mm. in width and 1000 mm. depth from the normal ground level in PCC/RCC/Hard soil shall be made by the contractor by using breaker and while laying the cable a layer of riddle soil shall be provided below and above the cable. After doing this the trench can be filled up with soil available thereby. If any damage is to be done, contractor will make good the cost of damage as decide by railway. If any hard /stony soil, contractor should adopt new technology method as per scope of work.

Item No-11: Laying, testing and commissioning of cables in air on wall/pole with suitable clamp/saddles.

Cable shall be laid between poles and main boards. These cables are to be laid in existing cable trench /on wall / Pole / Air with suitable of clamps.

Before laying the cable the route shall be marked in consultation with DFCCIL representative at site.

Before jointing is commenced all safety precautions like isolation, discharging, earthing etc. shall be taken to ensure that the cable would not be in-advertantly charged from live supply. Where cable is to be jointed with the existing cable the sequence should be so arranged, as to avoid crossing of cores while jointing.

The installation of cable including joints shall be carried out in accordance with code of practice as specified in relevant IS as amended latest.

Item No-12-13: Supply and providing 8 SWG GI earth wire and 25 X 6 mm GI strip.

Contractor has to supply, laying and jointing of GI strip of size-25x6 mm./ 8 SWG GI wire with PVC sleeve on walls, ceiling etc. for providing interconnections for different panels and transformers to earthing. GI strip should be connected with necessary non rusting clamps, washers, nuts and bolts etc. if required and not by welding.

Note: Contractor shall have to get approval of PM/Elect/DFC/ADI for make and model before supply materials.
