OFFER LETTER

Tender No: DFCCIL/NOIDA UNIT/Electrical/ Substation/ 2021/03

Name of Work: Supply, Erection, Testing and Commissioning of 33 kV Sub-stations, DG Set and related works for DFCCIL Integrated Office Cum Residential Complex at Sec-145, Noida.

To, The Chief General Manager, DFCCIL, Noida
We, the undersigned, declare that:
1. I/We have read the various conditions to tender attached hereto and agree to abide by the said conditions. I/We also agree to keep this tender open for acceptance for a period of 120 days from the date fixed for opening the same and in default thereof, I/We will be liable for forfeiture of my/our "Earnest Money". I/We offer to do the work for DFCCIL, at the rates quoted in the attached schedule and hereby bind myself/ourselves to complete the work in all respects within 09 months from the date of issue of letter of acceptance of the tender.
2. I/We also hereby agree to abide by the Indian Railways Standard General Conditions of Contract, with all correction slips up-to-date and to carry out the work according to the Special Conditions of Contract and Specifications of materials and works as laid down by DFCCIL in the annexed Special Conditions/Specifications, Schedule of Rates with all correction slips up-to-date for the present contract.
3. A sum of ₹ has already been deposited online as Earnest Money. Full value of the Earnest Money shall stand forfeited without prejudice to any other right or remedies in case my/our Tender is accepted and if:
(a) I/We do not submit the Performance Guarantee within the time specified in the Tender document;
(b) I/We do not execute the contract documents within seven days after receipt of notice issued by the DFCCIL that such documents are ready; and
(c) I/We do not commence the work within fifteen days after receipt of orders to that effect.
4. I/We have examined and have no reservations to the Bidding Documents including Addenda;
5. I/We offer to execute the Works in conformity with the Bidding Documents and within Specified Time.
6. I/We declare and certified that neither I/We (Name of Sole Proprietorship Firm/Limited Company/JV/Partnership Firm/LLP) nor any of the partner of the partnership firm/JV Firm/LLP have been blacklisted/debarred by

any Ministry/Department/PSU of Govt. of India/any State from participation in tenders/contract on the date of opening of the Bids either in our individual capacity or in any firm in which we are partners. I/We are neither Bankrupt/Insolvent nor in the process of winding-up nor there is a case pending before any Court on the date of opening of the Bids either in our individual capacity or in any firm in which we are partners.

- 7. If our bid is accepted, we commit to submit a Performance Guarantee in accordance with the Bidding Documents;
- 8. If our bid is accepted, we commit to deploy key equipment and key personnel consistent with the requirements of the work.
- 9. We understand that this bid, together with your written acceptance thereof communicated through Letter of Acceptance (LOA), shall constitute a binding contract between us, until a formal contract is prepared and executed.
- 10. All information, statements and description in this bid are in all respect true, correct and complete to the best of our knowledge and belief and we have not made any tampering or changes in the bidding documents on which the bid is being submitted and if any tampering/changes or incorrect information are detected at any stage, we understand the bid will invite summarily rejection and forfeiture of bid security, the contract will be liable to be terminated along with forfeiture of performance security, even if LOA has been issued.
- 11. I/We undertake and confirm that eligible similar work(s) has/have not been got executed through another contractor on back to back basis. Further that, if such a violation comes to the notice of Department, then I/We shall be debarred for tendering in DFCCIL in future forever. Also, if such a violation comes to the notice of Department before date of start of work, the DFCCIL shall be free to forfeit the entire amount of Earnest Money Deposit/Performance Guarantee.
- 12. I/We hereby declare that I/We shall treat the tender documents drawings and other records connected with the work as secret/confidential documents and shall not communicate information/derived there from to any person other than a person to whom I/We am/are authorized to communicate the same or use the information in any manner prejudicial to the safety of the State.
- 13. Until a formal agreement is prepared and executed, acceptance of this tender shall constitute a binding contract between us subject to modifications, as may be mutually agreed to between us and indicated in the letter of acceptance of my/our offer for this work.
- 14. We understand that you are not bound to accept the lowest bid or any other bid that you may receive.

NS	Supply, Installation, Testing & Commisioning of Indoor type, floor mounted Single breaker cubical panel (Total Type Tested Assembly as per IEC 61439) of suitable size fabricated from CRCA steel sheet of 2 mm thick for frame work, enclosures and doors, 3 mm thick for gland plates, dust, damm & vermin proof, IP-4X, fully interlocked, horizontal isolation, extensible type, horizontal draw out, air insulated, metal clad switchboard having single isolation features complete with circuits as detailed below. The switchboard shall be complete with necessary PVC insulated copper busbars, small wiring, labels, cable eyes, cable termination to receive XLPE cables and suitable for operation on 33 kV, 3 phase, 50 Hz, earthed system with a rupturing capacity of 1500 MVA at 33KV for 3 Sec as per specification. Panel shall be internal arc tested (Access from front, lateral & rear) for 25kA/1sec as per IEC62271-200.		
	BREAKER PANEL EQUIPPED WITH:		
	01 No. Metal clad housing with truck having 800A 4P integral VCB with electrically operated mechanism. (Spring charge motor - 230 V AC). 1 Set of air insulated copper bus bar 1 Sets of dual core CT's Core I - 200/5A Class 5P-10		
	(15 VA) Core-II 200/5A class 0.5 (15 VA) 1 Shunt trip/closing coil 24 V D.C.

		TOTAL OF TRANSFORMERS			1,15,41,468.00
7.0		SUB-HEAD: MAIN LT PANEL, CAPACITOR PANEL & BUS DUCT			
a		The rates for the distribution boards apart from the Breakers and instruments, shall also			

	include the following:	
b	Supporting rigid steel framework.	
С	Cubicle type, 2 mm CRCA/Aluzinc sheet steel enclosed.	
d	Complete with interconnections and distribution bus bars.	
e	Proper bonding to earth.	
f	Painting/lettering on Breakers and distribution boards, indicating the location they serve. Circuit diagram to be provided on each panel.	
g	Providing cable clamps / supports within distribution boards cable allay.	
h	Distribution panels shall be Powder Coated with Siemens gray paint shade no. RAL-7032/7035.	
i	Degree of protection for following type of distribution panel enclosure shall be as per IS:13947-1993.	
j	IP 42 for indoor panels.	
k	IP 54 for kitchen and laundry panels.	
1	IP 55 for outdoor panels.	
m	Tinned copper / GI earth bus as specified in the BOQ shall be provided through out the length of each board.	
n	All hinged door shall be earthed through 2.5 sq mm tinned braided copper wire.	
О	All panels shall have provision of the following:	
p	Pad locking of Switch board doors.	
q	Pad locking of MCCB's handles in "OFF" Position.	
r	All PTs / control transformer shall be provided with centre tap earth secondary.	

s	Current density of aluminium	
	shall be 1 sq mm for 0.8 amps	
	for rated current of bus bars	
	and current density of copper	
	shall be 1 sq.mm for 1.25	
	amps for rated current of bus	
	bars subject to short circuit	
	and tempretaure rise	
	calculation.	
t	The Switchboard shall have	
	provision for entry of all	
	XLPE/PVC Al Armoured	
	cables/bus duct from the	
	top/bottom as required.	
u	All live accessible parts shall	
	be shrouded and all equipment	
	shall be finger touch proof.	
	The busbar insulation shall be	
	with heat shrinkable sleeves.	
	SMC/DMC shrouds and	
	busbar supports shall be used.	
V	Thermostatically controlled	
	Space Heater/ light/ air filter	
	shall be provided for each	
	vertical compartment.	
W	Padlocking facility shall be	
	provided on all outgoing	
	feeders.	
X	Panel shall be Ethernet ready	
	to connect with EMS/BMS.	
у	All communication devices	
	shall be wired and looped on	
	ethernet switch.	
Z	All measuring instruments	
	(Meters) shall be of digital	
	electronic with LCD display	
	and suitable communication	
	port like Modbus/Ethernet and	
	compatible with EMS.	
aa	All incoming air circuit	
	breakers shall be placed in	
	single tier formation and	
	outgoing vertical in Dual tier	
	formation .	
ab	All ACB's shall have all	
	standard accessories such as	
	CT's, Arc Chute, Safety	
	Shutters etc. All ACBs shall	
	have communication port	
	based on Modbus/Ethernet for	

1 1	' ' DMC AII	
	communication to EMS. All	
	power metering data as well as	
	operation/maintanance data	
	shall be available to EMS.	
ac	The ACB shall have LED	
	indications to indicate type of	
	fault.	
ad	ACB shall have a rated	
au	operational voltage of 415V	
	AC, rated insulation voltage of	
	1000 volts AC, rated impulse	
	voltage of 12kV.	
ae	ACB shall have Ready to	
	Close Contact along with	
	LSIG protection.	
af	ACBs shall be provided with	
	top horizontal and bottom	
	vertical terminal adapters on	
	both sides for proper cable	
	connections/bus duct	
	connections.	
0.07	No derating in ACBs till 50	
ag	_	
	deg.c and hence suitable rating	
	to be choosen	
ah	All MCB's shall be of	
	minimum 10 kA breaking	
	capacity.	
ai	The breaking capacity of	
	MCCB's are mentioned panel	
	wise. All MCCBs shall be	
	plug-in type with	
	microprocessor type trip unit.	
	All MCCBs shall have	
	suitable communication port	
	based on Modbus/Ethernet.	
	All MCCBs shall provide all	
	power metering data as well as	
	operation/maintenance data to	
	EMS.	
a:	All motor feeders MCCBs	
aj		
	shall be of motor duty.	
ak	All MCCB's shall be	
	provided with operating	
	mechanism for door interlock.	
al	All fault level breaking	
	capacity indicated shall be Ics	
	value at 415 volts.	
am	All MCCB shall have variable	
	overload settings.	
	o refford bettings.	

an	1	MCCBs shall have a rated	1 1	İ	
an					
		operational voltage (Ue) of			
		415V, insulation voltage (Ui)			
		of 690 V (AC 50/60 Hz) &			
		impulse voltage (Uimp) of not			
		less than 8kV.			
ao		MCCBs shall be current			
		limiting type having a double			
		break design.			
an		MCCBs shall preferably be			
ap		single frame size of same			
		_			
		series for all ratings for ease of			
		maintenenance.			
aq		All microprocessor based			
		MCCBs to have trip history,			
		Neutral protection & fault			
		differentiation			
7.1		MAIN LT PANEIS (HHRI)

BUSBAR-1 for Solar		
Electrolytic high conductivity		
Copper Three phase and		
neutral busbars rated at 400		
Amp throughout having a		
maximum current density of		
1.25 amp per sq mm suitable		
to withstand symmetrical fault		
level of 35 MVA at 415 volts.		
The neutral busbar is to be of		
100% capacity.		
OUTGOING UNITS		
1 No. 400 Amp, 50 kA, 4P		
MCCB complete with		
microprocessor trip unit		
having LSIG protection with		
communication port RS 485.		
BUSBAR BETWEEN TWO		
TRANSFORMERS:		
SECTION-I & II and		
SECTION II & III		
Electrolytic high conductivity		
Copper three phase and neutral busbars rated at 2500		
Amp throughout having a		
maximum current density of		
1.25 amp per sq mm suitable		
to withstand symmetrical fault		
level of 45 MVA at 415 volts.		
The neutral busbar is to be of		
100% capacity.		
BUS-COUPLER-1 & 2 each		
having:		
1 Nos. 2500 Amp 415 volt		
grade 45 MVA, 50 kA, 4P		
EDO ACB with ethernet port		
complete with:		
6 Nos. NO/NC contacts.		
Red/Green/amber ON/ OFF/		
trip indicating lamps.		
Spring charge Indication lamp.		
24 V DC shunt trip coil.		
Under voltage release 240 volt		
AC.		
Illuminated push button for		
healthy circuit.		
Breaker control switch.		
Motor wound spring closing		
print of the state		

mechanism.			
INTERLOCKING			
The Bus section and Incoming ACB's shall be electrically interlocked with to achieve the sequence of operation, in case			
of manual override mode. OUTGOING UNITS			
SECTION-I			
1 Nos. 800 Amp 415 volt grade 50 kA 4P EDO ACB with in-built ethernet port.			
1 Nos. 800 Amp 415 volt grade 50 kA 3P EDO ACB with in-built ethernet port.			
4 Nos. 630 Amp, 50kA, 4P MCCB complete with Microprocessor based trip unit having LSIG protection complete with communication			
port RS 485 2 Nos. 100 Amp, 50kA, 4P MCCB complete with microprocessor based trip unit having LSIG protection complete with communication port RS 485			
SECTION-II			
1 No. 800 Amp 415 volt grade 50 kA 3P EDO ACB with in- built ethernet port.			
2 Nos. 630 Amp, 50kA, 4P MCCB complete with Microprocessor based trip unit having LSIG protection complete with communication port RS 485			
4 Nos. 400 Amp, 50kA, 4P MCCB complete with Microprocessor based trip unit having LSIG protection complete with communication port RS 485			
`2 Nos. 100 Amp, 50kA, 4P MCCB complete with microprocessor based trip unit having LSIG protection complete with communication port RS 485

	microprocessor based trip unit				
	having LSIG protection				
	complete with communication				
	port RS 485				
	1 No. 63 Amp, 50kA, 4P				
	MCCB complete with				
	Microprocessor based trip unit				
	having LSIG protection				
	complete with communication				
	port RS 485				
	The Main Panel shall be	Set	1	14422694.00	14422694.00
	complete with all				
	interconnections, risers,				
	internal wiring, labels etc				
	complete as required.				
7.2	CAPACITOR BANKS				
	WITH AUTOMATIC				
	CONTROL PANELS				
	(HHRI)				
	The rates for the capacitor				
	bank panels apart from the				
	switches and instruments shall				
	also include the following:				
a	Supporting rigid steel				
	framework.				

b	Cubicle type, 2 mm CRCA
	sheet steel enclosed.
С	Complete with
	interconnections and
	distribution bus bars.
d	Providing cable
u	clamps/supports within panels
	cable alley.
e	The breaking capacity of
	MCCB's are mentioned panel
	wise. All MCCB's shall be
	with microprocessor trip unit.
f	Automatic capacitor control
1	panels shall be powder coated
	with Siemens Grey RAL
	7032/7035.
g	Enclosure of all capacitor
8	control panel shall be as per IS
	13947-1993.
h	All MCCB shall be provided
	with operating mechanism for
	door interlock.
i	4PN MCCB shall means 3
	pole MCCB with adequate
	size of neutral link.
j	All copper bus bars shall be
	factory tinned.
k	Tinned copper / GI earth bus
	shall be provided through out
	the length of each panel.
1	All automatic control panel
	shall have provision for the
	following:
m	Padlocking of Switch board
	doors.
n	padlocking of MCCB's
	handles in OFF position.
О	All hinged door shall be
	earthed through 2.5 sq.mm
	tinned braided copper wire.
p	All PT's / Control transformer
	shall be provided with centre
	tap earth secondary.
q	All incoming and outgoing
	feeders have Pad locking
	facility.
r	All bus bars section/backside
	panels shall have pad locking facility and hinged type doors.
	racinity and ninged type doors.

7.2.1	Supply, Installation, Testing		
	and Commissioning of		
	Automatic control panels with		
	capacitors, fabricated out of 2		
	mm CRCA sheet steel in		
	cubicle compartmentised, free		
	standing, floor mounted, dust		
	and vermin proof with		
	reinforcement of suitable size,		
	angle iron, channel, 'T'		
	sections and/or flats wherever		
	necessary. Cable gland plates		
	shall be provided on top as		
	well as at the bottom of the		
	panels. Panels shall be treated		
	with all anticorrosive process		
	before powder coating as per		
	specifications and final		
	approved shade. 2 Nos.		
	earthing terminals shall be		
	provided for all distrtibution		
	panels. Panels shall be suitable		
	for 415V, 3 phase, 4 wire, 50		
	HZ supply system. Lifting		
	hooks shall also be provided		
	in case of large panels.		
	Approval shall be taken for		
	each panel in the form of shop		
	drawings before fabrication.		
	Galvanised hardwares with		
	zinc passivation shall be used		
	in fabrication of panels. The		
	system shall be provided with		
	Automatic & Manual mode		
	similar or equialent to Datar make APFC panels. It shall		
	provide rated 400 KVAR with		
	MPP heavy duty dielectric self		
	healing type shunt capacitor		
	with 14% D-tuned harmonic		
	filter with current limiting		
	device discharge resister in		
	suitable nos. of steps & of		
	suitable rating of capacitors, as		
	per specifications with		
	necessary PVC insulated		
	copper busbars, small wiring,		
	labels, cable eyes, cable		
	termination to receive bus		
	duct/XLPE cables. The panel		

shall also comply with		
following:		
INCOMER		
1 No. 800 Amp 415 volt grade

BUSBAR-1 for Solar		
Electrolytic high conductivity		
Copper three phase and neutral busbars rated at 250 Amp throughout having a		
maximum current density of 1.25 amp per sq mm suitable to withstand symmetrical fault level of 35 MVA at 415 volts.		
The neutral busbar is to be of 100% capacity.		
OUTGOING UNITS		
1 No. 250 Amp, 50kA, 4P MCCB complete with microprocessor trip unit having LSIG protection with		
communication port RS 485. BUSBAR BETWEEN TWO TRANSFORMERS -		
SECTION-I& II		
Electrolytic high conductivity		
Copper three phase and		
neutral busbars rated at		
4000Amp throughout having a		
maximum current density of		
1.25 amp per sq mm suitable to withstand symmetrical fault		
level of 45 MVA at 415 volts.		
The neutral busbar is to be of		
100% capacity.		
BUSCOUPLER-1		
1 Nos. 4000 Amp 415 volt grade 45 MVA, 65 kA, 4P EDO ACB complete with:		
6 Nos. NO/NC contacts.		
Red/Green/amber ON/ OFF/ trip indicating lamps.		
Spring charge Indication lamp.		
24 V DC shunt trip coil.		
Under voltage release 240 volt AC.		
Illuminated push button for healthy circuit.		
Breaker control switch.		
Motor wound spring closing mechanism.

bank panels apart from the switches and instruments shall also include the	7.4	WITH AUTOMATIC				
Supporting rigid steel		bank panels apart from the switches and instruments shall also include the following:				

framework.			
Cubicle type, 2 mm CRCA			
sheet steel enclosed.			
Complete with			
interconnections and			
distribution bus bars.			
Providing cable			
clamps/supports within panels			
cable alley.			
The breaking capacity of			
MCCB's are mentioned panel			
wise. All MCCB's shall be			
with microprocessor based trip			
unit. All MCCBs shall provide			
LSIG protection. All MCCBs			
shall have communication port			
RS 485.			
APFC panel shall be OEM			
make and design. Capacitor,			
reactor and APFC controller			
shall be of same make.			
Automatic capacitor control			
panels shall be powder coated			
with Siemens Grey RAL			
7032/7035.			
Enclosure of all capacitor			
control panel shall be as per IS			
13947-1993.			
All MCCB shall be provided			
with operating mechanism for door interlock.			
All copper bus bars shall be	-		
factory tinned.			
Tinned copper / GI earth bus			
shall be provided through out			
the length of each panel.			
All automatic control panel			
shall have provision for the			
following:			
Padlocking of Switch board			
doors.			
padlocking of MCCB's			
handles in OFF position.			
All hinged door shall be			
earthed through 2.5 sq.mm			
tinned braided copper wire.			
All PT's / Control transformer			
shall be provided with centre			
tap earth secondary.			

1 1	1	
	All incoming and outgoing	
	feeders have Pad locking	
	facility.	
	All bus bars section / backside	
	panels shall have pad locking	
	facility and hinged type doors.	
7.4.1	Supply, Installation, Testing	
7.7.1	and Commissioning of	
	Automatic control panels with	
	capacitors, fabricated out of 2	
	mm CRCA sheet steel in	
	cubicle compartmentised, free	
	standing, floor mounted, dust	
	and vermin proof with	
	reinforcement of suitable	
	size, angle iron, channel, 'T'	
	sections and / or flats	
	wherever necessary. Cable	
	gland plates shall be provided	
	on top as well as at the bottom	
	of the panels. Panels shall be	
	treated with all anticorrosive	
	process before powder coating	
	as per specifications and final	
	approved shade. 2 Nos.	
	earthing terminals shall be	
	provided for all distribution	
	panels. Panels shall be suitable	
	for 415V, 3 phase, 4 wire, 50	
	_	
	Hz supply system. Lifting	
	hooks shall also be provided in	
	case of large panels. Approval	
	shall be taken for each panel	
	in the form of shop drawings	
	before fabrication. Galvanised	
	hardwares with zinc	
	passivation shall be used in	
	fabrication of panels. The	
	system shall be provided with	
	Automatic & Manual mode	
	similar or equialent to Datar	
	make APFC panels. It shall	
	provide rated 500 KVAR with	
	MPP heavy duty dielectric self	
	healing type shunt capacitor	
	with 14% D-tuned harmonic	
	filter with current limiting	
	device discharge resister in	
	suitable nos. of steps & of	
	suitable rating of capacitors, as	
	surtable failing of capacitors, as	

1 1	1	1	ı	1
	per specification with			
	necessary PVC insulated			
	copper busbars, small wiring,			
	labels, cable eyes, cable			
	termination to receive bus			
	duct/XLPE cables The panel			
	shall also comply with			
	following:

9.0	SUB-HEAD : MISCELLANEOUS ITEMS				
9.1	Supplying and Placing of non- skid rubber mat 10mm thick and 900mm width as required including cutting to required lengths or approved make with Test Certificate for L.T. panels.		57	3679.00	209703.00
9.2	Supplying and Placing of non- skid rubber mat 12mm thick and 900mm width as required including cutting to required lengths or approved make with Test Certificate for HT 33 KV panels.		18	4200.00	75600.00
9.3	Supplying and fixing of fire bucket painted red and duly filled with sand conforming to IS:2546-1974 and made of 24 SWG MS sheet.		16	348.00	5568.00
9.4	Supply, erection and fixing of canopy type frame for 4 fire buckets of 9 Litre capacity made of heavy duty MS structure made out of 24 SWG of 1200 mm (H) X 760 mm (L), painted with two coats of Red Oxide primer and further with anti corrosive paint. It must have multiple hooks to support support 9 Litre sand filled buckets.		4	2608.00	10432.00

9.5	Supplying and fixing cable route marker with route indication on 150mm dia cast iron disk bolted to 40x40x3mm angle iron grouted in 1:3:6 concrete block 150x150x300mm deep including two coats of aluminium paint on the metal work.	Each	38	274.00	10412.00
9.6	Supplying and fixing of shock restoration chart of minimum size (2 Ft X3 Ft) written in English and Hindi duly framed in glass as required.	Each	4	1168.00	4672.00
9.7	Supplying and fixing carbon dioxide type fire extinguisher, 4.5 Kgs capacity of approved make on wall mounting bracket as required conforming to IS:2878/1976.	Each	10	9726.00	97260.00
9.8	Supplying and fixing chemical foam type fire extinguisher, 9 Litre capacity of approved make on wall mounting bracket as required conforming to IS:993.	Each	4	7875.00	31500.00
9.9	Supplying and fixing Dry Chemical Powder type fire extinguisher, 5 Kgs capacity of approved make on wall mounting bracket as required conforming to IS:14609.	Each	14	7412.00	103768.00
9.10	Providing and fixing NO SMOKING & DANGER ZONE sign boards.	Nos.	8	1573.00	12584.00
9.11	Supplying of first aid box as approved complete with standard kit as prescribed by Indian Red Cross.	Each	4	3260.00	13040.00
9.12	Providing and fixing MV danger plate of 200x150mm made of mild steel atleast 2mm thick and vitreous enamelled white on both side and with inscription in signal red colour on front side as required.	Each	7	109.00	763.00

9.13	Providing and fixing HT danger notice plate of 250x200mm made of mild steel atleast 2mm thick and vitreous enamelled white on both sides with inscription in signal red colour on front side as required.	Each	7	114.00	798.00
	TOTAL OF MISCELLANEOUS ITEMS				5,76,100.00
10.0	SUB-HEAD: SUPPLY OF HT CABLE, CONTROL CABLE & TERMINATIONS				
10.1	Supplying & Laying of XLPE insulated and PVC sheathed 1100 volts armoured copper conductor control cable in existing duct/pipes/tray etc. including supplying and making end termination as required as per technical specifications.				
10.1.1	4 x 2.5 sq.mm	RM	70	107.00	7490.00
10.1.2	10 x 2.5 sq.mm	RM	70	225.00	15750.00
10.1.3	14 x 2.5 sq.mm	RM	70	305.00	21350.00
10.1.4	19 x 2.5 sq.mm	RM	70	410.00	28700.00
10.2	Supplying of 3 core undernoted size of Aluminium conductor XLPE 33 KV (E) cable as per Technical specifications.				
10.2.1	3C x 300 sq.mm	RM	890	1631.00	1451590.00
10.2.2	3C x 240 sq.mm	RM	735	1453.00	1067955.00
10.2.3	3C x 185 sq.mm	RM	110	1320.00	145200.00
10.3	Supply and making of end Termination, connection & commissioning of indoor/outdoor type under noted size Aluminium conductor XLPE 33 KV (E) cable on HT swsitchgear/transformer cable box including supply and installation of heat shrinkAble type jointing kit, cable lugs etc. as required.				

10.3.1	3C x 300 sq.mm (indoor)	Each	10	16652.00	166520.00
10.3.2	3C x 300 sq.mm (out door)	Each	2	27007.00	54014.00
10.3.3	3C x 240 sq.mm (indoor)	Each	4	16652.00	66608.00
10.3.4	3C x 185 sq.mm (indoor)	Each	5	14685.00	73425.00
10.3.5	3C x 185 sq.mm (out door)	Each	5	20405.00	102025.00
10.4	Supplying and making straight through cable jointing with heat shrinkable jointing kit complete with all accessories including ferrules suitable for following size of 3 core, XLPE aluminium conductor cable of 33 KV grade as required:				
10.4.1	3C x 300sq.mm	Set	4	37310.00	149240.00
10.4.2	3C x 240sq.mm	Set	2	37310.00	74620.00
10.5	Constrcting Masonry Manholes in following sizes with brick 75 class with inside and outside plaster, Inside size 120x120 cm and 150 cm deep including RCC main hole cover HD-20 grade frame with (heavy duty) concrete etc;				
10.5.1	1200x1200x1500mm deep	Set.	40	23562.00	942480.00
10.6	Supply and fixing of Hot dip GI cable tray/steel work in position including clamps, frame work of flats, angle iron, channel with fabrication work including cutting, bending, welding, drilling bolting etc. as per design as required.	Kg.	200	130.00	26000.00
	TOTAL OF SUPPLY OF HT CABLE, CONTROL CABLE & TERMINATIONS				43,92,967.00
11.0	SUB-HEAD: SUPPLY OF LT CABLES				
a	The rate shall also include the following:				
b	Providing and fixing junction boxes with covers including painting where ever required.				
c	Providing all fixing				

	accessories such as clamping				
	devices nuts, bolts and screws.				
d	Wherever the cables are of				
	aluminium and bus bars of				
	copper, bimetallic lugs shall				
	be used.				
e	All cable shall be laid with one diameter gap.				
f	All cables shall be IS				
1	approved.				
g	Double compression glands				
h	Fire retardent paint one meter				
	on both side of wall				
	penetration and at termination				
	as per specifications.				
i	Burried LT cables to be laid

13.3	SILENT TYPE DG SETS OF 1 x 1010 KVA (CORP TOWER)				
	Supply, installation, testing and commissioning of 1500KVA (PRIME -AS PER CPCB- II MODEL) SILENT Diesel Generator set, radiator cooled type, suitable for AMF of 415V, 3 phase 4 wire, 0.8 PF (lagging) 50 c/s A.C supply complete with engine (1500 RPM) and alternator, DG Set controller with accessories including residential type silencer and fuel service tank 990 litres capacity with battery with all associated accessories, and anti-vibration mounting pads, first fill of Lub Oil & supply of extended adopter box with bus-bar, isolator switch. The				

		3.3 or equivalent should be with digital voltage regulator through inbuilt AVR, digital governing + protective function. Including Supply and Installation of Adopter Box with Extended Bus Bar with Supply and Installlation of Isolator Panel having below below switchgear. Diesel Engine shall be full authority electronic engine with electronic unit injection fuel system for lesser fuel consumption & low maintemanice cost. Mandatory PCB/CEIG approval for the above is in the scope of Contractor. Isolator Panel shall be IN-BUILT inside the accoustic enclosure. It must include following accessories: 1600A TP manually fixed ACB with standard accessories, Three Phase Energy Meter, Class 1.0, Type, DM5240, CT, Indicating Lamps and Aux, Relay etc as required. Fuel Tank, 990L Batteries & Leads AVM Pads Residential Silencer Engine Controller AMF Controller AMF Controller	Set	1	8509384.00	85,09,384.00
13.4	NS	Supplying and fixing of under noted 'B' class M.S. pipe for D.G. exhaust complete with bends, elbow, flanges etc. as required.				
13.4.1		250mm dia pipe (4.85 mm	Metre	96	5,512.00	5,29,152.00
13.4.2		thick) 300mm dia pipe (4.85 mm		42	6,614.00	2,77,788.00
13.4.3		thick) 400 mm dia pipe (4.85 mm thick)	Metre	42	8,819.00	3,70,398.00

13.5	NS	Supply and fixing of 75 mm thick compressed mineral wool insulation for D.G. exhaust pipe with wire chicken mesh over insulation and 26 gauge aluminium sheet cladding etc. as required for the under mentioned dia pipe.				
13.5.1		250mm dia pipe	Metre	96	4,213.00	4,04,448.00
13.5.2		300 mm dia pipe	Metre	42	5,055.00	2,12,310.00
13.5.3		400 mm dia pipe	Metre	42	5,600.00	2,35,200.00
13.6	NS	Supply of SS bellow				
13.6.1		250mm dia pipe	Each	2	19,339.00	38,678.00
13.6.2		300mm dia pipe	Each	1	23,207.00	23,207.00
13.6.3		400 mm dia pipe	Each	1	31,047.00	31,047.00
13.7	NS	Supply, installation, testing and commissioning of MS ERW 'C' class fuel pipe for connecting diesel engine to individual day service tank including supply and fixing of required valves, Tee, Elbows and filters and painting of pipe with desired shade of synthetic enamel paint etc. complete as required for following size.				
13.7.1		25mm dia	Metre	120	475.63	57,076.11
13.8	NS	Supply, fabrication and installation of M.S. Structural Steel supports for exhaust pipe, fuel pipe etc. including supply and applying of synthetic enamel paint of approved shade after one coat of steel primer of reputed company.	Kgs.	31000	102.44	31,75,773.30
13.9	NS	SITC of Aviation Lamp with cables etc complete as required	Set	2	27,179.10	54,358.20
13.10	NS	SITC of Lightning Arrestor with earth pit etc complete as required	Set	2	37,319.00	74,637.99

13.11	Supply, laying and testing of under noted sizes of copper conductor XLPE insulated PVC sheathed armoured and overall PVC sleeved 1.1 KV grade power distribution cables conforming to relevant IS code in laid in ground including cost of digging upto required depth, 150 mm sand all around the cable, brick protection and back filling, clamped to wall with suitable clamps including, saddles fixing bolts, connecting testing and commissioning./ through pipe or on wall/racks/cable trays including dressing and clamping etc. as required.				
10.11.1	Recommended Cable Size		100	707.0 5	
13.11.1	19C x 2.5 Sqmm CU armoured Control Cable	Metre	100	785.06	78,505.79
13.11.2	14C x 2.5 Sqmm CU armoured Control Cable	Metre	100	607.35	60,734.84
13.11.3	5C x 2.5 Sqmm CU armoured Control Cable(Twisted core Shielded cable)	Metre	100	435.43	43,543.01
13.11.4	24C x 2.5 Sqmm CU armoured Control Cable	Metre	50	971.13	48,556.51
13.11.5	4C x 2.5 Sqmm CU armoured Control Cable	Metre	50	244.61	12,230.60
13.11.6	2C x 2.5 Sqmm CU armoured Control Cable	Metre	50	172.48	8,624.14
13.11.7	2C x 4 Sqmm CU armoured Control Cable	Metre	50	212.21	10,610.30
13.11.8	8C x .75 sqmm (Shielded Cable)	Metre	50	278.06	13,903.16
13.11.9	Cables End Termination	Each	20	564.49	11,289.78
13.11.1	300 mm wide, 50mm deep, 2 mm thick perforated type cable tray	Metre	50	965.90	48,295.17
	TOTAL OF DG SETS				3,59,87,942.00
14.0	SUB-HEAD: U/G HSD TANK AND ALLIED WORKS				
	FUEL STORAGE TANK				
14.1	Supply, installation, site	No.	1	6,80,993.00	6,80,993.00

	preparation. complete as per			
	specifications and as required.			
	Storage capacity (nominal):			
	1X20 KL			
	Gross capacity (not to exceed)			
	: 1X21.5 KL			
	Shell Thickness : 6mm			
	End Plate Thickness: 8mm			
	Tank of 20KL shall be			
	complete with all usual			
	nozzles, manhole, dip stick			
	(caliberated). Extra high level			
	and extra low level switches			
	for alarms should be provided.			
	-			
	Lifting lugs, earthing lugs etc,			
	vent pipe with flame arrestor			
	etc and any other			
	nozzle/fittings as per			
	IS:10987.			
	Note:-1			

	Erection to include excavation, making foundations for resting of tank as per IS:10987:1992, fixing of tank by anchor bolt and corrosion protection of tank by two coats of bituminous paints as well as construction of dyke wall all around the U/G tank and backfill with sand upto 300mm above and all around the U/G tank inside the dyke				
	wall.				
	Contractor to get his shop drawing approved before fabrication of the tank.				
	The contractor has to arrange 3rd party inspection, approval of the plans for the HSD installation as well as getting license for storage of HSD from the concerned				
	authorities. NOTE: -2-THE DRAWINGS ATTACHED FOR THE TENDER IS				
	ONLY GUIDANCE PURPOSE. THE SUCESSFUL TENDERER				
	SHALL BE SUBMITTED THE DETAILED DRAWIGNS FOR				
	EXECUTING THE CIVIL				
14.2	CONSTRUCTION WORKS. Valve manifold for HSD service tank (for D.G.sets)				
	Valve manifold to be provided to pipe line connecting HSD transfer pump to service tank and shall be complete with supporting stucture, clamps grouting by making pedestals etc. The valve manifold would consist of magnatic float type level indicators with fluorescent indication with level switches at four level and flame proof solenoid valve for on-off operation of	No.	3	69,683.00	2,09,049.00

	transfer pump. Extra high level and extra low level alarms would also be provided.				
14.3	HSD OVER FLOW TANK				
14.3.1	M.S. (IS:2026) regulator with hopper bottom overflow tank capacity of 200 litres made out of 4 mm thick M.S. sheet complete with inlet,outlet, drain vent with flame arrestor and support legs. The tank should be provided with controller, level gauge and alarm at extra low high level. Tank should be painted with two coats of redoxide and synthytic enamel paint of colour as specified by Owner/ Consulatant	No.	1	69,683.00	69,683.00
14.4	Supply, installation, testing and commissioning of Fuel Transfer Pumpsets with rotary gear pumps and flameproof motors suitable for transferring HSD oil from the Underground Bulk Storage Tank to the 990 litre Buffer Oil Tanks in DG room, at a flow rate as below against a head of 7 kg/cm², complete as per specifications and as required. (one standby). Section head should not be less than 3.50m				
14.4.1	75 lpm flow rate	Nos.	3	93,640.00	2,80,920.00
14.5	OVER FLOW PUMP FOR HSD (SELF PRIMING)				
14.5.1	Rotary gear over flow pump of capacity 50 LPM for HSD complete with base frame, foundation bolts, coupling, coupling guard and flame proof TEFC motor (3 H.P.) flame proof starters and other accessories required for commissioning.	No	3	93,640.00	2,80,920.00

14.6	Supply, laying testing and commissioning of Oil piping with class C MS pipes laid in existing masonry trenches/ hume pipes including the cost of bends, flanges, gaskets supports, clamps etc. and including the cost of surface preparation of pipes, application of primer paint coat and polymeric 4 mm thick tape (Pypekote 4 mm) and including the cost of testing before wrapping of rust preventing tape complete as per specification, as required and as below.				
14.6.1	80mm NB (Fill pipe)	M	5	1,684.00	8,420.00
14.6.2	50mm NB	M	700	1,181.00	8,26,700.00
14.6.3	40mm NB	M	40	908.00	36,320.00
14.6.4	25mm NB	M	700	626.00	4,38,200.00
14.7	Extra for item no. 3(C) & 3(D) & above for laying of 1 no pipe class C in ground including excavation, sand cushioning, brick protective covering and refilling the trench etc. as required as detailed below.				
14.7.1	50mm NB	M	700	317.00	2,21,900.00
14.7.2	25mm NB	M	700	317.00	2,21,900.00
14.8	Supply, installation, testing and commissioning of piping accessories complete as required and as below:	N		20.005.00	70.070.00
14.8.1	80mm NB aluminium adaptor suitable for oil company's delivery hose and with 5m delivery hose pipe.	No.	2	39,985.00	79,970.00
14.8.2	80mm NB brass ball valves	No.	3	26,759.00	80,277.00
14.8.3	80mm NB Pot strainer with SS screen of 80/100 mesh.	No.	3	5,986.00	17,958.00
14.8.4	50mm NB brass ball valves	Nos.	4	7,000.00	28,000.00
14.8.5	50mm NB brass Pot strainer/Y strainer.	No.	4	14,023.00	56,092.00
14.8.6	50mm NB brass check valve	No.	4	12,803.00	51,212.00
14.8.7	40mm NB brass valves ball valve	Nos.	32	7,668.00	2,45,376.00

14.8.8	40mm NB brass check valve	Nos.	32	9,630.00	3,08,160.00
14.8.9	40mm NB pot srainer/Y strainer.	No.	12	12,027.00	1,44,324.00
14.8.10	25mm NB ball valves	Nos.	30	5,200.00	1,56,000.00
14.9	Supply and fixing of flow meter for Diesel line as required.				
14.9.1	80mm dia Nominal flow rate 12000 LPH	No.	1	2,50,538.00	2,50,538.00
14.9.2	Sight glass type flow indicator, screwed. 80 NB for main tank filling line.	No.	1	8,154.00	8,154.00
14.9.3	Pressure gauge with isolator cock and syphon, 80 mm dia,range 0-15 kg/sq.cm.	No.	1	3,450.00	3,450.00
14.9.4	25mm dia Nominal flow rate 2000 LPH	Nos.	5	1,42,088.00	7,10,440.00
14.10	Supply, Installations, testing and Commissioning of 32 Amp Isolators in weather proof housing IP 65 Flame Proof mounted on wall/stand (lockable) near HSD Tank location with all accessories as required.	Nos.	3	9,408.00	28,224.00
14.11	Supplying & laying of Control cable, PVC insulated PVC sheathed fire proof FRLS copper conductor with pairs of cables 4Cx1.5 Sq.mm direct in ground including excavation, sand cushioning, protective covering and refilling the trench etc as required. as per IS:1554 Part-I for remote sensing and remote indication of the oil level in tanks and tripping of transfer pump at high level with alarm at extra high and extra low level.	Rm	1450	199.00	2,88,550.00
14.12	Supplying & installation of Control panel (near the HSD transfer pumps in the oil storage yard) complete with Flame proof isolator switch (remote push buttons, jewel light for pump on/off indication, assembled in a				

	sheet metal enclosure complete with internal wiring etc.) for the 2 nos. transfer pumps. All accessories to be flameproof thickness of sheet metal 16 SWG, powder coated finish, equipment to fully comply with all relevant IS codes. Incoming: Consisting of 32 Amps MCCB (Motor Duty) with copper bus bar, indication Lamps for each phase and				
	Outgoings: 2 Nos. 16 Amps MPCB (motor duty) for the two no. HSD transfer pumps, starters for 3.0 h.p. motors, indication lamps, digital ammeter for each pump with ammeter selector switch, auto/manual selector switches. Also Level controller for automatic switching on/off of the HSD transfer pump, and for low level/high level alarm from the signal received from the 4 level switches provided in each HSD service tanks. Alarm to consist of flashing light as well as claxon (Hooter). Also alarm for extra high level/ extra low level from the signal received from the level switches in the main HSD storage tank. Complete in all respects with all internal wiring. Sheet metal enclosure not less than 16 SWG, finish powder coated, equipment to comply with the relevant IS codes.	Set	3	1,01,922.00	3,05,766.00
14.13	Construction of tank lorry hard standing platform, 150mm thick soling on top with 50mm thick 1:4:8 levelling course followed by 150mm thick RCC 1:2:4 slab and chequered with rope to provide anti-skid surface of	cub.mtr.	6.30	7,000.00	44,100.00

	size 6m x 3m, item also includes breaking and disposal of dismantled / broken material.				
14.14	Providing and constructing earthing pits & earthing connection as per Indian Electricity Act & IS: 3043 complete with copper earth plate (600 x 600 x 3.0) including accessories; masonary enclosure with cover plate having locking arrangement and watering pipe etc.; salt and charcoal filling as required; GI earthing strip 25x6 in ground to near the motors etc.; and with GI earthing wire 6 SWG to connect to motors and other electrical equipments, complete in all respects including soldering.	SET	5	35,860.00	1,79,300.00
14.15	Providing and fixing of chain link fencing 50x50 x8 mm, 2 M high & grounted on concreted post at 2.5 @ c/c with 1 No. of entrance gate (4M x 3M) and 1 No. of service gate 1 M wide for HSD fuel storage yard area.	RM	50	11,878.00	5,93,900.00
	TOTAL OF U/G HSD TANK AND ALLIED WORKS				68,54,796.00
	TOTAL OF NON- SCHEDULE ITEMS				12,15,91,692.00
	GRAND TOTAL OF SCHEDULE-I (SCHEDULE + NON-SCHEDULE)				12,47,07,973.00

Supply, Erection, Testing and Commissioning of 33 kV Sub-stations, DG Set and related works for DFCCIL Integrated Office Cum Residential Complex at Sec-145, Noida. SCHEDULE-II (CIVIL WORKS) S. DSR-**Description of Item** Unit COMB. Rate Amount 2018 No. (QTY.) SCHEDULE ITEMS (Based on CPWD DSR-2018) 1.0 **EARTH WORK:** 1.1 D.S.R. Earth work in excavation by 2.6 mechanical (Hydraulic means excavator)/manual means over areas (exceeding 30 cm in depth, 1.5 m in width as well as 10 sqm on plan) including getting out and disposal of excavated earth lead upto 50 m and lift upto 1.5 m, as directed by Engineerin-charge. All kinds of soil CUM 205.70 162.00 33323.40 2.6.1 CUM 225.00 232110.00 1.2 D.S.R. Earth 1.031.60 work in excavation by 2.8.1 mechanical means (Hydraulic excavator) / manual means foundation trenches or drains (not exceeding 1.5 m in width or 10 sqm on plan), including dressing of sides and ramming of bottoms, lift upto 1.5 m, including getting out the excavated soil and disposal of surplus excavated soil as directed, within a lead of 50 m. all kinds of soil. 1.3 D.S.R. Filling available excavated earth CUM 564.91 196.00 110722.36 (excluding rock) in trenches, plinth, 2.25 sides of foundations etc. in layers not exceeding 20cm in depth, consolidating each deposited layer by ramming and watering, achieve at least 95% of max dry density as per IS 2720 Part VII, lead up to 50m and lift upto 1.5 m depth. Supplying and filling in plinth with 1.4 2.27 **CUM** 4.260.00 1744.00 7429440.00 sand under floors, including watering, ramming, consolidating and dressing

complete.

Format of Bank Guarantee for Performance Security

Bank Guarantee no	Dated
To, Chief Project Manager, Dedicated Freight Corridor Corporation of India Ltd/Noida Unit D-89, 1st Floor, Sector-2, Noida-20 1301	
Reference:-Contract No, awarded on	
This deed of Guarantee made this day	t and ferred to as "Bank") of the
Whereas Dedicated Freight Corridor Corporation of India Limit no	(hereinafter called "the
Whereas the contractor is bound by the said Contract to sirrevocable performance security guarantee bond for a total ar <i>Words)</i> only.	
Now, we the undersigned (<i>Name of Bank officials</i>), of the basign and to incur obligations for and on behalf of the Bank here will guarantee the Employer the full amount of Rsabove.	by declare that the said Bank

After the Contractor has signed the aforesaid contract with the Employer, the Bank further agree and promise to pay the amount due and payable under this guarantee without any demure merely on a demand from the Employer stating that the amount claimed is due by way of loss or damage cause to or would be caused or suffered by the employer by reason of any breach by the said contractor of any of the terms or conditions contained in the said agreement or by reason of the contractor failure to perform the said agreement. Any such demand made on the Bank shall be conclusive as regards the amount due and payable by the Bank under this guarantee. However, our liability under this guarantee shall be restricted to an amount not exceeding Rs........................ (Rs. in Words) only.

We..... (indicate the name of Bank), further undertake to pay to the Employer any money so demanded notwithstanding any dispute or dispute raised by the contractor in any suit or proceeding pending before any court or Tribunal relating to liability under this present being absolute and unequivocal.

The payment so made by us (name of Bank) under this bond shall be a valid discharge of our liability for payment there under and the Contractor shall have no claim against us for making such payment.

We...... (indicate the name of Bank), to further agree that the guarantee herein contained shall remain in full force and effect during the period that would be taken for the performance of the said agreement and that it shall continue to be enforceable till all the dues of the Employer under or by virtue of the said agreement have been full paid and its claims satisfied or discharged by (Designation & Address of Contract signing authority) on behalf of Employer certify that the terms and conditions of the said agreement have been fully and properly carried out by the said contractor and accordingly discharges this guarantee.

Notwithstanding anything to the contrary contained herein the liability of the bank under this guarantee will remain in force and effect until such time as this guarantee is discharged in writing by the employer or until (*date of validity/extended validity*) whichever is earlier and no claim shall be valid under the guarantee unless notice in writing thereof is given by the Employer within validity/extended validity period of guarantee from the date aforesaid.

We...... (indicate the name of Bank), to further agree with the Employer that the Employer shall have the fullest liberty without our consent and without effecting in any manner out of obligation hereunder to vary any of the terms and conditions of the said contract from time to time or to postpone for any time or from time to time any to power exercisable by the Employer against the said contractor and to forbear or enforce any of the terms and conditions of the said agreement and we shall not be relieved from our liabilities by reason of such variation, or extension being granted to the said contractor for any bearance act or omission on the part of the Employer or any indulgence by the Employer to the said contractor or by any such matter or thing whatsoever which under the law relating to sureties for the said reservation would relieve us from the liability.

The Guarantee hereinbefore contained shall not be affected by any change in the constitution of Bank or of the Contractor.

	expressions "the Employer", "the Bank" and "the Contractor" hereinbefore used shall ude their respective successors and assigns.			
Not	withstanding anything to the contrary contained hereinbefore:			
i)	Our liability under this Bank Guarantee shall not exceed and restricted to Rs(Rs. in words).			
ii)	This Bank Guarantee shall be valid up to, unless extended on demand by Employer.			
iii)	i) The Bank is liable to pay the guaranteed amount or any part thereof under this Bank Guarantee only if Employer serve a written claim or demand on or before

PRE-CONTRACT INTIGRITY PACT

GENERAL:

This pre-bid contract Agreement (hereinafter called	the Integrity Pact) is made on
day of the month of	2021, between, on one hand,
the DFCCIL acting through Shri	Designation of the officer,
(hereinafter called the CLIENT, which expression sho	all mean and include, unless the
context otherwise requires, his successors in office ar	nd assigns) of the First Part and
M/s represented by Shri	Chief Executive
Officer (herein after called the "BIDDER/SELLER"	" which expression shall mean
and include, unless the context otherwise requires,	his successors and permitted
assigns) of the Second Part.	

WHEREAS, the CLIENT proposes to procure (Name of the Stores/Equipment/Item, Name of the Consultancy Service, Name of Works Contract, Name of Services) and the [A] is willing to offer/has offered for stores or works.

WHEREAS, the [A] is a private company/public company/Government undertaking/partnership/registered export agency, constituted in accordance with the relevant law in the matter and the CLIENT is a PSU performing its functions on behalf of the President of India.

NOW, THEREFORE,

To avoid all forms of corruption by following a system that is fair, transparent and free from any influence/prejudiced dealings prior to, during and subsequent to the currency of the contract to be entered into with a view to: -

Enabling the CLIENT to obtain the desired said (Name of the Stores/Equipment/Item, Name of the Consultancy Service, Name of Works Contract, Name of Services) at a competitive price in conformity with the defined specifications by avoiding the high cost and the distortionary impact of corruption on public procurement, and

Enabling BIDDERs to abstain from bribing or indulging in any corrupt practice in order to secure [B] by providing assurance to them that their competitors will also abstain from bribing and other corrupt practices and the CLIENT will commit to prevent corruption, in any form, by its officials by following transparent procedures.

The parties hereto hereby agree to enter into this integrity pact and agree as follows:

Commitments of the CLIENT:

1.0 The CLIENT undertakes that no official of the CLIENT, connected directly or indirectly with the [B], will demand, take a promise for or

accept, directly or through intermediaries, any bribe, consideration, gift, reward, favour or any material or immaterial benefit or any other advantage from the [A] either for themselves or for any person, organization or third party related to the [B], in exchange for an advantage in the bidding process, bid evaluation, contracting or implementation process related to the [B].

- 1.1 The CLIENT will, during the pre-contract stage, treat all BIDDERs alike, and will provide to all BIDDERs the same information and will not provide any such information to any particular BIDDER which could afford an advantage to that particular [A] in comparison to other BIDDERs.
- 1.2 All the officials of the CLIENT will report to the appropriate Government office any attempted or completed breaches of the above commitments as well as any substantial suspicion of such a breach.
- 2.0 In case any such preceding misconduct on the part of such officials(s) in reported by the [A] to the CLIENT with full and verifiable facts and the same is prima facie found to be correct by the CLIENT, necessary disciplinary proceedings, or any other action as deemed fit, including criminal proceedings may be initiated by the CLIENT and such a person shall be debarred from further dealings related to the [B] process. In such a case while an enquiry is being conducted by the CLIENT the proceedings under the [B] would not be stalled.

3.0 Commitments of BIDDERS:

The [A] commits itself to take all measures necessary to prevent corrupt practices, unfair means and illegal activities during any stage of its bid or during any pre-contract or post-contract stage in order to secure the [B] contract or in furtherance to secure it and in particular committee itself to the following: -

- 3.1 The [A] will not offer, directly or through intermediaries, any bribe, gift, consideration, reward, favour, any material or immaterial benefit or other advantage, commission, fees, brokerage or inducement to any official of the CLIENT, connected directly or indirectly with the bidding process, or to any person, organization or third party related to the [B] in exchange for any advantage in the bidding, evaluation, contracting and implementation of the [B].
- 3.2 The [A] further undertakes that it has not given, offered or promised to give, directly or indirectly any bribe, gift, consideration, reward, favour, any material or immaterial benefit or other advantage, commission, fees, brokerage or inducement to any official of the CLIENT or otherwise in procuring the Contract or forbearing to do or having done any act in

- relation to the obtaining or execution of the [B] or any other [B] with the Government for showing or forbearing to show favour or disfavour to any person in relation to the [B] or any other [B] with the Government.
- 3.3* [A] shall disclose the name and address of agents and representatives and Indian [A] shall disclose their foreign principals or associates.
- 3.4* [A] shall disclose the payments to be made by them to agents/brokers or any other intermediary, in connection with this bid/contract.
- 3.5 The [A] further confirms and declares to the CLIENT that the [A] is the original manufacturer/integrator/authorized government sponsored export entity of the defence stores and has not engaged any individual or firm or company whether Indian or foreign to intercede, facilitate or in any way to recommend to the CLIENT or any of its functionaries, whether officially or unofficially to the award of the [B] to the [A] nor has any amount been paid, promised or intended to be paid to any such individual, firm or company in respect of any such intercession, facilitation or recommendation:
- 3.6 The [A] either while presenting the bid or during pre-contract negotiations or before signing the [B] shall disclose any payments he has made, is committed to or intends to make to officials of the CLIENT or their family members, agents, brokers or any other intermediaries in connection with the [B] and the details of services agreed upon for such payments.
- 3.7 The [A] will not collude with other parties interested in the [B] to impair the transparency, fairness and progress of the bidding process, bid evaluation, contracting and implementation of the [B].
- 3.8 The [A] will not accept any advantage in exchange for any corrupt practice, unfair means and illegal activities.
- 3.9 The [A] shall not use improperly, for purposes of competition or personal gain, or pass on to others, any information provided by the CLIENT as part of the business relationship, regarding plans, technical proposals and business details, including information contained in any electronic data carrier. The [A] also undertakes to exercise due and adequate care lest any such information is divulged.
- 3.10 The [A] commits to refrain from giving any complaint directly or through any other manner without supporting it with full and verifiable facts.
- 3.11 The [A] shall not instigate or cause to instigate any third person to commit any of the actions mentioned above.

3.12 If the [A] or any employee of the [A] or any person acting on behalf of the [A], either directly or indirectly, is a relative of any of the officers of the CLIENT, or alternatively, if any relative of an officer of the CLIENT has financial interest/stake in the BIDDER's firm, the same shall be disclosed by the [A] at the time of filling of tender.

The term 'relative' for this purpose would be as defined in Section 6 of the Companies Act 1956.

3.13 The [A] shall not lend to or borrow any money from or enter into any monetary dealings or transactions, directly or indirectly, with any employee of the CLIENT.

4.0 Previous Transaction:

- 4.1 The [A] declares that no previous transgression occurred in the last three years immediately before signing of this integrity pact, with any other company in any country in respect of any corrupt practices envisaged hereunder or with any Public Sector Enterprise in India or any Government Department in India that could justify BIDDER'S exclusion from the tender process.
- 4.2 The [A] agrees that if it makes incorrect statement on this subject, [A] can be disqualified from the tender process or the contract, if already awarded, can be terminated for such reason.

5.0 Earnest Money (Security Deposit):

- 5.1 While submitting commercial bid, the [A] shall deposit an amount ______ (to be specified in RFP) as Earnest Money/Security Deposit, with the CLIENT through any of the following instruments:
 - (i) Bank Draft or a Pay order in favour of _____
 - (ii) A confirmed guarantee by an Indian Nationalized Bank, promising payment of the guaranteed sum to the CLIENT on demand within three working days without any demur whatsoever and without seeking any reasons whatsoever. The demand for payment by the CLIENT shall be treated as conclusive proof or payment.
 - (iii) Any other mode or through any other instrument (to be specified in the BID).
- 5.2 The Earnest Money/Security Deposit shall be valid upto a period of five years or the complete conclusion of the contractual obligations to the complete satisfaction of both the BIDDER and the CLIENT, including warranty period, whichever is later.

- 5.3 In case of the successful [A] a clause would also be incorporated in the Article pertaining to Performance Guarantee in the [B] that the provisions of Sanctions for Violation shall be applicable for forfeiture of Performance Bond in case of a decision by the CLIENT to forfeit the same without assigning any reason for imposing sanction for violation of this pact.
- 5.4 No interest shall be payable by the CLIENT to the [A] on Earnest Money/Security Deposit for the period of its currency.

6.0 Sanctions for violations:

- 6.1 Any breach of the aforesaid provisions by the [A] or any one employed by it or acting on its behalf (whether with or without the knowledge of the [A] shall entitle the CLIENT to take all or any one of the following actions, wherever required: -
 - (i) To immediately call off the pre-contract negotiations without assigning any reason or giving any compensation to the [A]. However, the proceedings with the other BIDDER(s) would continue.
 - (ii) The Earnest Money Deposit (in pre-contract stage) and/or Security Deposit/performance Bond (after the [B] is signed) shall stand forfeited fully and the CLIENT shall not be required to assign any reason therefore.
 - (iii) To immediately cancel the [B], if already signed, without giving any compensation to the [A].
 - (iv) To recover all sums already paid by the CLIENT, and in case of an Indian [A] with interest thereon at 2% higher than the prevailing Prime Lending Rate of State Bank of India, while in case of a [A] from the country other than India with interest thereon at 2% higher than the LIBOR. If any outstanding payment is due to the [A] from the CLIENT in connection with any other [B], such outstanding payment could also be utilized to recover the aforesaid sum and interest.
 - (v) To encash the advance bank guarantee and performance bond/warranty bond, if furnished by the [A], in order to recover the payments, already made by the CLIENT, along with interest.
 - (vi) To cancel all or any other Contracts with the [A]. The [A] shall be liable to pay compensation for any loss or damage to the CLIENT resulting from such cancellation/rescission and the CLIENT shall be entitled to deduct the amount so payable from the money(s) due to the [A].

- (vii) To debar the [A] from participating in future bidding processes of the Government of India for a minimum period of five years, which may be further extended at the discretion of the CLIENT.
- (viii) To recover all sums paid in violation of this Pact by [A] to any middleman or agent or broker with a view to securing [B] the contract.
- (ix) In cases where irrevocable Letters of Credit have been received in respect of any [B] signed by the CLIENT with the [A], the same shall not be opened.
- (x) Forfeiture of Performance Bond in case of a decision by the CLIENT to forfeit the same without assigning any reason for imposing sanction for violation of this pact.
- 6.2 The CLIENT will entitled to take all or any of the actions mentioned at para 6.1(i) to (x) of this pact also on the Commission by the [A] or any one employed by it or acting on its behalf (whether with or without the knowledge of the [A], of an offence as defined in Chapter IX of the Indian Penal Code, 1860 or Prevention of Corruption Act, 1988 or any other stature enacted for prevention of corruption.
- 6.3 The decision of the CLIENT to the effect that a breach of the provisions of this Pact has been committed by the [A] shall be final and conclusive on the [A]. However, the [A] can approach the independent monitor(s) appointed for the purposes of this pact.

7.0 Fall Clause:

7.1 The [A] undertakes that it has not supplied / is not supplying similar product/systems or subsystems at a price lower than that offered in the present bid in respect of any other Ministry/Department of the Government of India or PSU and if it is found at any stage that similar product/systems or sub systems was supplied by the [A] to any other Ministry/Department of the Government of India or a PSU at a lower price, then that vary price, with due allowance for elapsed time, will be applicable to the present case and the difference in the cost would be refunded by the [A] to the CLIENT, if the [B] has already been concluded.

8.0 Independent Monitors:

8.1 The CLIENT has appointed independent Monitors (hereinafter referred to as Monitors) for this Pact in Consultant with the Central Vigilance Commission (Name and Addresses of the Monitors to be given).

- 8.2 The task of the Monitors shall be to review independently and objectively, whether and to what extent the parties comply with the obligations under this pact.
- 8.3 The Monitors shall not be subject to instructions by the representatives of the parties and perform their functions neutrally and independently.
- 8.4 Both the parties accept that the Monitors have the right to access all the documents relating to the project/procurement, including minutes of meetings.
- 8.5 As soon as the Monitor notices, or has reason to believe, a violation of this Pact, he will so inform the Authority designated by the CLIENT.
- 8.6 The BIDDER(s) accepts that the Monitor has the right to access without restriction to all project documentation of the CLIENT including that provided by the BIDDER. The [A] will also grant the Monitor, upon his request and demonstration of a valid interest, unrestricted and unconditional access to his project documentation. The same is applicable to Subcontractors. The Monitor shall be under contractual obligation to treat the information and documents of the [A] with confidentiality.
- 8.7 The CLIENT will provide to the Monitor sufficient information about all meetings among the parties related to the Project provided such meetings could have an impact on the contractual relations between the parties. The parties will offer to the Monitor the option to participate in such meetings.
- 8.8 The Monitor will submit a written report to the MD/DFCCIL within 8 to 10 weeks from the date of reference or intimation to him by the CLIENT/BIDDER and, should the occasion arise, submit proposals for correcting problematic situations.

9.0 Facilitation of Investigation:

In case of any allegation of violation of any provisions of this Pact or payment of commission, the CLIENT or its agencies shall be entitled to examine all the documents including the Books of Accounts of the [A] and the [A] shall provide necessary information and documents in English and shall extend all possible help for the purpose of such examination.

10.0 Law and Place of Jurisdiction:

This pact is subject to Indian Law. The Place of performance and jurisdiction is the seat of the CLIENT.

11.0 Other Legal Actions:

The actions stipulated in this Integrity Pact are without prejudice to any other legal action that may follow in accordance with the provisions of the extant law in force relating to any civil or criminal proceedings.

12.0 Validity:

- 12.1 The validity of this Integrity Pact shall be from date of its signing and extend upto 5 years or the complete execution of the [B] to the satisfaction of both the CLIENT and the [A] including warranty period, whichever is later. In case [A] is unsuccessful, this Integrity Pact shall expire after six months from the date of the signing of the [B].
- 12.2 Should one or several provisions of this Pact turn out to be invalid; the remainder of this Pact shall remain valid. In this case, the parties will strive to come to an agreement to their original intentions.
